

Pneumatic atomizing nozzles, Full cone, pressure principle, internal mixing Series 136.2 / 166.2

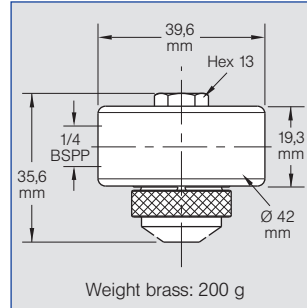

Fine full cone atomization and fogging with air or gas. Especially wide spray angle of 60°. Pressure principle. Internal mixing of fluids.

Applications:
Humidification of air, cooling.

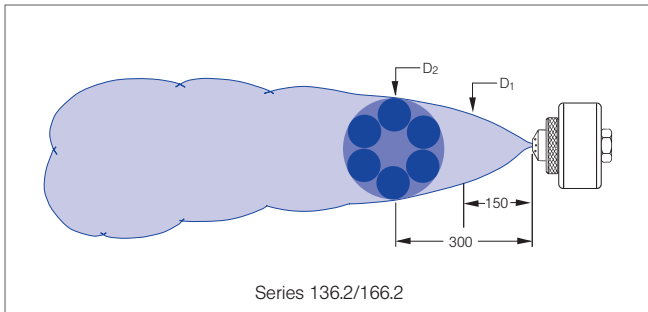

Series 136.2

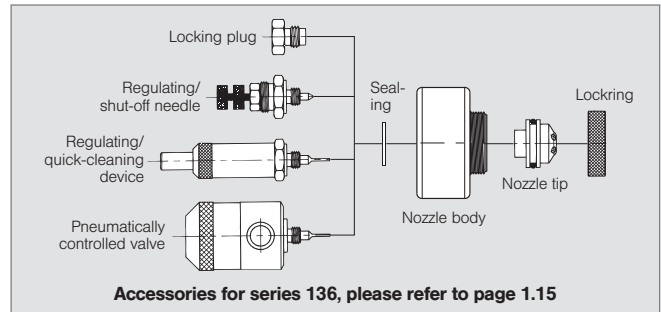

Weight brass: 200 g

Series 166.2 with magnetic valve
Weight brass: 350 g

Series 136.2/166.2

Accessories for series 136, please refer to page 1.15
